From Nature to Aida Barni

Spring Summer 2025

Inspired by the primordial elements – air, sky, and earth – our summer collection is born in perfect harmony with nature. Each piece is a tribute to the lightness of the wind, the infinite hues of the sky, and the life-giving strength of the earth.

From the cotton flower to the yarn that gently embraces the body, we use natural fibers to create fresh, timeless knitwear that reconnects with our roots and the essence of simplicity. Lightweight textures, landscape-inspired tones, and artisanal craftsmanship blend together to give life to sophisticated, elegant garments, perfect for accompanying you in style on sunny days.

Pure, vibrant colors—sun and sea meeting in waves of stitches. Printed ribs and sleek silhouettes enhance the body's movement, like branches swaying in the wind.

Aida Barni celebrates the beauty that surrounds us and its essential wonder.
